Executive Summary

What this deliverable does. One or two sentences stating the purpose and scope, in the project own voice. Write U_CAN as the actor.

What was done. The method, briefly – who was involved, over what period, using what evidence.

Key findings. Three to five findings, each a complete sentence that states the finding rather than the topic it concerns.

Note. Callouts use the 12% green wash with a 4px green bar – the same weight as the logo underscore.

What happens next. How the result feeds the following work package or deliverable.

Keywords

climate neutrality; municipal energy planning; pilot cities; Ukraine

1 Introduction

Body copy is 11 pt in navy – never black. One idea per sentence, and the project written as the actor rather than as a passive construction.

1.1 Subsection

Second-level headings are 12 pt bold. Paragraphs are flush left, ragged right, with no first-line indent and no justification – justified text opens rivers at this measure.
